

WORKSHEET OUTPOST | Grade 2 Math

Split a number before subtracting

OW-G2-097 | Five questions

Success criteria

I can use tens and ones to add or subtract within 100.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. 49 - 16 = ___. Break apart the number you subtract.

2. 69 - 27 = ___. Break apart the number you subtract.

3. 79 - 28 = ___. Break apart the number you subtract.

4. 83 - 20 = ___. Break apart the number you subtract.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
