

**WORKSHEET OUTPOST | Grade 1 Math**

# A ten-step decrease

**Success criteria**
I can subtract ten and explain which digit changes.

OW-G1-162 | Five questions

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. What is 10 less than 34? Explain the change.

2. What is 10 less than 58? Explain the change.

3. What is 10 less than 61? Explain the change.

4. What is 10 less than 90? Explain the change.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
