

**WORKSHEET OUTPOST | Grade 2 Math**

# Totals with several two-digit addends

**Success criteria**
I can group tens and ones to add several numbers.

OW-G2-021 | Five questions

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. 12 + 21 + 13 = ___. Show how you grouped addends.

2. 13 + 22 + 14 = ___. Show how you grouped addends.

3. 14 + 23 + 15 = ___. Show how you grouped addends.

4. 15 + 24 + 16 = ___. Show how you grouped addends.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
