

WORKSHEET OUTPOST | Grade 2 Math

Explain a two-step decision

OW-G2-036 | Five questions

Success criteria
I can explain how my tens and ones show that my answer makes sense.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Jo adds 29 and 18, then subtracts 18. Jo says the result is 29. Explain why.

2. Jo adds 38 and 29, then subtracts 29. Jo says the result is 38. Explain why.

3. Jo adds 47 and 30, then subtracts 30. Jo says the result is 47. Explain why.

4. Jo adds 59 and 22, then subtracts 22. Jo says the result is 59. Explain why.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
