

WORKSHEET OUTPOST | Grade 2 Math

Choose centimeters or meters

OW-G2-054 | Five questions

Success criteria
I can start at zero, measure the length, and name the unit.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Choose centimeters or meters to measure a paper clip.

2. Choose centimeters or meters to measure a hallway.

3. Use a centimeter ruler to measure an eraser. Record the length.

4. Estimate the height of a doorway in meters. Then measure it with an adult. Write both numbers.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
