

WORKSHEET OUTPOST | Grade 2 Math

More practice with line plots

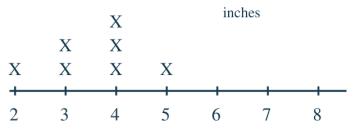

Success criteria
I can measure lengths and show the measurements on a line plot.

OW-G2-025 | Five questions

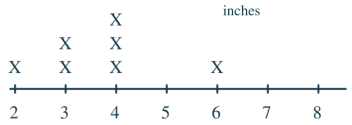

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

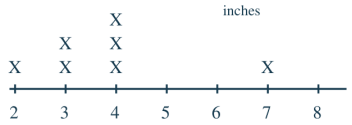

1. Use the line plot. How many lengths are 3 or 4 inches?

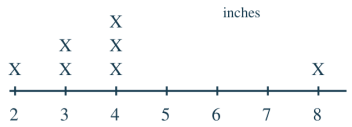

2. Use the line plot. How many lengths are 3 or 4 inches?

3. Use the line plot. How many lengths are 3 or 4 inches?

4. Use the line plot. How many lengths are 3 or 4 inches?

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
