

WORKSHEET OUTPOST | Kindergarten Math

Compare objects in two ways

OW-K-109 | Five questions

Success criteria
I can compare two objects and tell how their measurements differ.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Compare two classroom objects by length. Draw and label the longer one.

2. Compare the same objects by weight using a balance. Label the heavier.

3. Can one object be longer but lighter than another? Give an example.

4. Draw a tall thin cup and a short wide cup. How could you compare what they hold?

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
