

WORKSHEET OUTPOST | Grade 1 Math

Place and compare on a number line

OW-G1-132 | Five questions

Success criteria
I can compare two numbers by looking at their place values.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Locate 34 and 43 on the line. Which is farther right, or are they at the same point?

30 32 34 36 38 40 42 44 46 48 50
31 33 35 37 39 41 43 45 47 49

2. Locate 57 and 52 on the line. Which is farther right, or are they at the same point?

50 51 52 53 54 55 56 57 58 59 60

3. Locate 62 and 62 on the line. Which is farther right, or are they at the same point?

60 61 62 63 64 65 66 67 68 69 70

4. Locate 85 and 79 on the line. Which is farther right, or are they at the same point?

70 72 74 76 78 80 82 84 86 88 90
71 73 75 77 79 81 83 85 87 89

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
