

WORKSHEET OUTPOST | Grade 1 Math

Explain a two-digit comparison

OW-G1-117 | Five questions

Success criteria
I can compare two numbers by looking at their place values.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Jo says 34 is greater than 43. Use tens and ones to decide if Jo is correct.

2. Jo says 57 is greater than 52. Use tens and ones to decide if Jo is correct.

3. Jo says 62 is greater than 62. Use tens and ones to decide if Jo is correct.

4. Jo says 85 is greater than 79. Use tens and ones to decide if Jo is correct.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
