

WORKSHEET OUTPOST | Grade 1 Math

Missing tens in an addition equation

OW-G1-181 | Five questions

Success criteria
I can subtract tens and explain how the number changes.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. 20 + ___ = 50. Use addition to solve 50 - 20.

2. 30 + ___ = 60. Use addition to solve 60 - 30.

3. 10 + ___ = 70. Use addition to solve 70 - 10.

4. 40 + ___ = 90. Use addition to solve 90 - 40.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
