

WORKSHEET OUTPOST | Grade 1 Math

Draw a tens subtraction model

OW-G1-166 | Five questions

Success criteria
I can subtract tens and explain how the number changes.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. A tub holds 50 cubes. 20 are used. Draw a model and find how many are left.

2. A tub holds 60 cubes. 30 are used. Draw a model and find how many are left.

3. A tub holds 70 cubes. 10 are used. Draw a model and find how many are left.

4. A tub holds 90 cubes. 40 are used. Draw a model and find how many are left.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
