

WORKSHEET OUTPOST | Grade 1 Math

Compare lengths through a third object

OW-G1-105 | Five questions

Success criteria
I can compare lengths and order objects from shortest to longest.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. A ribbon is longer than a strip. A cord is shorter than the same strip. Which is longer: ribbon or cord? Explain.

2. A pencil is shorter than a straw. A crayon is shorter than the pencil. Which is shortest? Explain.

3. A blue strip is as long as a stick. A red strip is longer than that stick. Which strip is longer? Explain.

4. A spoon is longer than a key. A brush is longer than the spoon. Order all three from shortest to longest.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
