

WORKSHEET OUTPOST | Grade 1 Math

Coin names and cents

OW-G1-189 | Five questions

Success criteria

I can name common coins and tell how many cents each is worth.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Write the value of one penny in cents. Draw or point to a real example.

2. Write the value of one nickel in cents. Draw or point to a real example.

3. Write the value of one dime in cents. Draw or point to a real example.

4. Write the value of one quarter in cents. Draw or point to a real example.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
