

WORKSHEET OUTPOST | Grade 1 Math

Divide a whole into two or four equal parts

OW-G1-138 | Five questions

Success criteria
I can divide a shape into equal parts and name each share.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

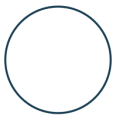

1. Divide the rectangle into 2 equal shares. Shade one share. Name it.

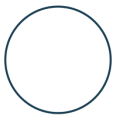

2. Divide the rectangle into 4 equal shares. Shade one share. Name it.

3. Divide the circle into 2 equal shares. Shade one share. Name it.

4. Divide the circle into 4 equal shares. Shade one share. Name it.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
