

WORKSHEET OUTPOST | Grade 1 Math

Name a half or a fourth

OW-G1-153 | Five questions

Success criteria
I can divide a shape into equal parts and name each share.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. How many halves make a whole? Shade one half.

2. How many fourths make a whole? Shade one fourth.

3. If two wholes are the same size, which is larger, one half or one fourth? Explain.

4. Two equal parts of a whole are called ___. Four equal parts are called ___.

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
