

WORKSHEET OUTPOST | Grade 1 Math

Practice review: shapes and equal parts

OW-G1-156 | Five questions

Success criteria
I can divide a shape into equal parts and name each share.

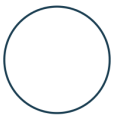

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. Split this rectangle into halves. Shade one half.

2. Split this circle into fourths. Shade one fourth.

3. How many halves make one whole? How many fourths?

4. If two wholes are the same size, why is one fourth smaller than one half?

5. Draw a shape like one on this page. Name it and describe one thing you notice about it.

You can point, speak, draw, or write. Adults can note any help they give.
